

PRESS RELEASE

IMMEDIATE RELEASE

MALAYSIA-JAPAN INTERNATIONAL INSTITUTE OF TECHNOLOGY JAPAN DAY 2016

KUALA LUMPUR, 17 December 2016 - The Malaysia-Japan International Institute of Technology (MJIIT) is pleased and proud to announce the fourth 'Japan Day' to be held at MJIIT, Universiti Teknologi Malaysia, Kuala Lumpur.

It is an opportunity for prospective students and surrounding communities to learn on the uniqueness of MJIIT from the blend of Malaysian and Japanese style engineering education, innovative R&D activities, globally diverse faculty members and a wide range of authentic Japanese culture through a one-day academic cum cultural event.

Several fun and exciting activities available during the program such as cultural workshops, food stalls, competitions and demonstration of Japanese cuisine by experienced chef.

In conjunction with this event, there will be a Mock Cheque Presentation for JACTIM Foundation Research Proposal Competition. JACTIM has contributed RM245,000 to MJIIT since 2012.

MJIIT is a new and vibrant entity at UTM KL. Established as a government-to-government initiative in August 2010 to become a distinct leader in academic and research excellence in Electronics, Precision, Environmental & Green Engineering and Management of Technology through a novel Japanese style engineering education.

MJIIT draws its strength from the long-established research university UTM and a consortium of 27 well-established Japanese universities (JUC) and supported by various Japanese agencies and industries. MJIIT is also served as an engineering education hub for ASEAN region through Look East Policy 2.0 (LEP2).
